ABSTRACT

The bibliography has been prepared to assist in the development of libraries in State departments of education and in institutions of higher education with new programs in adult education. The books, journals, and articles cited were obtained from the reading lists of courses in adult education conducted by more than 150 members of the Commission of Professors of Adult Education. The bibliography is a catalogue of those works in the field considered by these trainers to be basic to an understanding of the knowledge and breadth of the field. It is not intended to be an exhaustive listing of all relevant literature. The list is alphabetically arranged by author, and includes author, title, date, publisher, and (occasionally) price. Appended are a five-page list of voluntary associations with adult education concerns and a five-page list of selected adult education journals. (Author/PR)

Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. nevertheless, items of marginal reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions ERIC makes available via the ERIC Document Reproduction Service (EDRS). EDRS is not responsible for the quality of the original document. Reproductions supplied by EDRS are the best that can be made from the original.

Dear Colleague:

This bibliography has been prepared to assist in the development of libraries in state departments of education and in institutions of higher education with new programs in adult education.

The books, journals and articles cited were obtained from the reading lists of courses in adult education conducted by members of the Commission of Professors of Adult Education. More than 150 professors responded to our request for bibliographic material. In this sense, the bibliography is a catalogue of those works in the field considered by these trainers to be basic to an understanding of the knowledge and breadth of our field. It should in no way be thought of as an exhaustive listing of all relevant literature.

The prices indicated are those appearing in Books in Print, 1972. Users are encouraged to write to the publisher for information regarding cost and availability of those materials with no price shown. Some of the works out-of-print in 1972 are being considered for republication.

I thank my colleagues who responded so generously to our request for help; and want to express particular appreciation to Mrs. Ethel Hunt who gathered the materials, collated them and typed the final copy.

We hope you will find this document to be a useful resource.

Sincerely yours,

Jessie K. Ulin
